

Handicap / Special Needs Camping SOP

Supplies

- 40 6' T-posts -2 8' T-posts
- 1 spool of ½ mile Electric galvanized Fence Wire
- 40 Solar Flame Torches -12 Sire & Princesses in wheelchairs
- 20 Twin Blue Sheets cut to size with 2" seam on top and bottom
- 20 Twin White Sheets cut to size with 2" seam on top and bottom

- Clean the entire Handicap area.
 - Using a blower and heavy duty rake, clear the entire area of all leaves, twigs, gravel, etc. this is to ensure that there is nothing hidden that could be a hazard to our campers.
 - Using a rolling magnet go over the entire area of any metal (nails, staples, bottle tops, etc.)
 - Using a handsaw, clear out any vines that can be tripped over.
- Starting at the tree behind the cabin across from the shower house drop T-posts every 10 feet all the way around to sign posts. Make sure to not drop any T-posts where the pavilion will be.

• A&S

- String wire between top and bottom of each post leaving each walkway open
- Put the sheets on the wires alternating between white and blue around
- Put tall T-posts 8 footers in front of pavilion
- Place the torches on top of each T-posts and the signs on each entrance
