

## Rapier Authorizations

- A. Fighter Authorizations, including those for combat archery, are not to be performed at Gulf Wars. Fighters must have their fighter authorization card approved prior to March 14, 2026.
- B. All rapier fighters, including those who wish to use projectile weapons, must have a current rapier authorization from their home kingdom.
- C. No separate authorization is required for a fighter to use RBGs in a scenario where RBGs have been explicitly allowed.
- D. Fighters who wish to use combat archery at Gulf Wars must do one of the following:
  - 1. Have a current authorization from their home kingdom in either Rapier Combat Archery or Armored Combat Archery.
  - 2. Fighters who are from a kingdom that does not have an authorization program for Rapier Combat Archery may either:
    - a) Obtain an armored combat archery authorization prior to the start of the war
    - or
    - b) Attend a training class in RCA at the war that will be held at several times during the war, including on the day of the scenarios where RCA has been explicitly allowed. Please consult the War Schedule. This will allow the fighter to use RCA at, **and only at**, this year's Gulf Wars.
